Setting up a Zoho Creator account and exploring the platform architecture and interface

Aim:

To create a zoho creator account and explore its platform architecture,features and user interface

Requiremente:

Hardware Requirements

- Computer or Laptop
- Minimum 4 GB RAM
- Stable Internet Connection

Software Requirements

- Operating System: Windows / Linux / macOS
- Web Browser: Google Chrome / Microsoft Edge / Mozilla Firefox
- Zoho Creator Account
- Zoho Creator Platform

PROCEDURE:

1)Open Zoho Creator and create/sign in to a Zoho account.

2)Open the Zoho Creator dashboard and explore the main interface.

3)Create a sample application using the **Create Application** option.

4)Explore the application components such as **Forms, Reports, Pages, Workflows and Dashboards**.

5)Navigate through the application builder and observe the available drag and drop features.

6)Explore the settings and application management options.

Result:

The Zoho Creator account was successfully set up and the platform architecture and interface were explored. The basic components and low-code development features were identified.
